RUMBLE OS • CLINICAL YOGA & TAI CHI SERIES

A4 Laminated Reference • Sheet 1: Beginner Mindful Floor Flows

SHEET 1 OF 6 • BEGINNER FLOWS

Cervical ACDF C4–C7: Strictly neutral spine; zero head extension or end-range rotation; supported neck roll.

Left Knee Meniscal: Knee flexion ≤45°; no unpadded floor kneeling; cushioned bolster under joints.

Right Shoulder Impingement: Active elevation ≤80°; elbows below clavicle; light band resistance only.

Y-BEG1 Morning Gentle Reset — 10 min

Intensity: Beginner / Zero Impact | **Equipment:** Mat, Bolster / Pillows | **Target:** Lumbar decompression & circulation

Constructive Rest Position — 3 min
Lie supine with bolster under knees. Hands on abdomen. Deep 4-7 diaphragmatic breathing.

Supine Pelvic Tilts — 3 min
Inhale natural lumbar arch. Exhale flatten lumbar spine smoothly into mat without buttock lifting. 10 slow reps.

Alternating Heel Slides — 2 min
Slowly extend right heel along floor, slide back. Repeat left. Keep pelvis completely level.

Diaphragmatic Centering Breath — 2 min
Hands on lower ribs, 360° expansion, relaxing neck, jaw, and facial muscles.

Y-BEG2 Restorative Hip & Lumbar Unwind — 20 min

Intensity: Beginner / Restorative | **Equipment:** Mat, Bolster, Yoga Strap | **Target:** Pelvic tightness & piriformis release

Supported Child's Pose — 5 min
Wide knees, large bolster between thighs. Fold forward, chest and head resting comfortably.

Supine Single Knee-to-Chest — 5 min
Hug right hamstring (avoid knee cap) towards chest. Hold 2.5 min per leg. Relax sacrum flat.

Supine Figure-Four with Strap — 5 min
Right ankle over left thigh. Loop strap under left thigh to gently assist. 2.5 min each side.

Supported Savasana — 5 min
Full supine rest with bolster under knees, arms at sides, palms facing upward.

Y-BEG3 Full-Body Decompression & Downregulation — 30 min

Intensity: Beginner / Restorative | **Equipment:** Mat, Bolster, Block, Small Pillow | **Target:** Vagal tone & cervical relaxation

Constructive Rest with Vagal Breath — 6 min
Bolster under knees. Inhale 4s through nose, smooth 7s exhale through soft pursed lips.

Supine Cervical Rotation & Tucks — 5 min
10 gentle chin retractions against mat; 10 slow comfortable head turns left/right.

Open Book Thoracic Mobilization — 7 min
Side-lying with cushion between knees. Sweep top arm open across chest. 10 reps each side.

Supported Bridge on Lowest Block — 6 min
Yoga block at lowest height under sacrum. Full pelvic weight supported, opening hips.

Legs-Elevated Wall Relaxation — 6 min
Calves elevated onto couch or wall bolster. Hands on lower belly, relaxing lower back.

FORM REFERENCE • SUPINE DECOMPRESSION & HIP RELEASE

Zero Impact • Form Alignment

Constructive Rest Position

- Bolster under knees
- Lumbar decompressed
- Hands on abdomen

Pelvic Tilts & Core Bracing

- Gentle posterior tilt
- Transverse engaged
- No buttock lifting

Supported Child's Pose

- Bolster between thighs
- Chest supported
- Cervical spine neutral

Legs-Elevated Relaxation

- Calves on wall/couch
- Venous return
- Parasympathetic downshift

RUMBLE OS • CLINICAL YOGA & TAI CHI SERIES

A4 Laminated Reference • Sheet 2: Mindful Tai Chi & Vestibular Balance

Cervical ACDF C4–C7: Strictly neutral spine; zero head extension or end-range rotation; supported neck roll.

Left Knee Meniscal: Knee flexion ≤45°; no unpadded floor kneeling; cushioned bolster under joints.

Right Shoulder Impingement: Active elevation ≤80°; elbows below clavicle; light band resistance only.

TC-BEG1 Seated Mindful Energy & Breath Flow — 10 min

Intensity: Beginner / Seated | **Equipment:** Sturdy Chair | **Target:** Torso mobility & diaphragmatic sync

Commencing Form / Opening Chest — 3 min
Sit tall, feet grounded. Inhale float palms up to mid-chest with soft elbows. Exhale press down gently.

Wave Hands Like Clouds (Seated) — 4 min
Sweep right palm across torso while left rests low. Rotate through thoracic spine, neck neutral.

Closing Circle / Harmonizing Qi — 3 min
Sweep arms wide in gentle low arc. Bring palms together and sink towards lower dantian (navel).

TC-BEG2 Supported Standing Balance & Kinetic Grounding — 20 min

Intensity: Beginner / Supported Standing | **Equipment:** Sturdy Rail / Chair | **Target:** Weight shifting & ankle stability

Stance Alignment & Weight Shifting — 6 min
Hands lightly touching rail or chair back. Shift 70% weight right, then left. Knees soft, no twist.

Repulse the Monkey (Modified) — 6 min
Touch rail with one hand. Step back softly heel-to-toe, push opposite palm forward below shoulder level.

Brush Knee & Push (Supported) — 5 min
Holding rail, shallow step forward with left foot. Sweep right hand in gentle push, spine vertical.

Zhan Zhuang (Standing Like a Tree) — 3 min
Both hands resting on rail. Tailbone gently tucked, crown reaching tall, diaphragmatic breath.

TC-BEG3 Restorative Flow for Chronic Pain & Vitality — 30 min

Intensity: Beginner / Hybrid Seated & Standing | **Equipment:** Sturdy Chair, Rail | **Target:** Joint lubrication & somatic flow

Gentle Joint Loosening (Neck Neutral) — 6 min
Slow wrist circles, unweighted ankle circles, gentle backwards shoulder rolls. Avoid neck circles.

Six Harmonies Upper Body Flow — 8 min
Synchronize rising and sinking arm movements with breath, sinking traps away from ears.

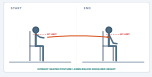

Tai Chi Slow Walking with Rail Support — 8 min
Walk slowly along rail. Place heel first, roll through midfoot to toes, smooth deliberate weight transfer.

Parting Wild Horse's Mane (Supported) — 5 min
Light rail contact. Diagonal step, gently expand front arm across torso with bent elbow below shoulder.

Calming the Waters (Closing Meditation) — 3 min
Seated upright, hands resting over lower abdomen. Deep rhythmic belly breathing, releasing tension.

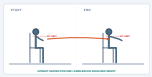

FORM REFERENCE • SEATED & SUPPORTED STANDING TAI CHI

Zero Impact • Form Alignment

Seated Commencing Form

- Upright posture
- Palms rise to chest
- Sinking with breath

Seated Cloud Hands

- Thoracic rotation
- Neck stays centered
- Fluid arm glide

Supported Weight Shifting

Supported Weight Shifting

- Light rail support
- Knees soft & aligned
- 70/30 weight shift

Supported Brush Knee & Push

Supported Brush Knee & Push

- Shallow step forward
- Vertical torso alignment
- Low forward push

Supported Repulse Monkey

Supported Repulse Monkey

- Heel-to-toe step back
- Steady balance contact
- Gentle arm reach

Six Harmonies Fluid Flow

Six Harmonies Fluid Flow

- Depress shoulder blades
- Diaphragmatic rhythm
- Total somatic ease

Clinical Decision Support Only • Consult neurosurgeon and physiotherapist before progressing • Stop immediately upon sharp pain or neurological radiating symptoms.

RUMBLE OS • CLINICAL YOGA & TAI CHI SERIES

A4 Laminated Reference • Sheet 3: Clinical Floor & Nerve Decompression

Cervical ACDF C4–C7: Strictly neutral spine; zero head extension or end-range rotation; supported neck roll.

Left Knee Meniscal: Knee flexion ≤45°; no unpadded floor kneeling; cushioned bolster under joints.

Right Shoulder Impingement: Active elevation ≤80°; elbows below clavicle; light band resistance only.

Y-MED1 Posture, Scapula & Core Alignment — 25 min

Intensity: Medium | **Equipment:** Mat, Light Band, Wall | **Target:** Scapular retractions & neutral core

Wall Angels (Partial Range) — 2 min
Stand against wall, lumbar flat, chin tucked. Slide arms keeping elbows below 90°.

Supported Scapular Retractions — 3 min
Standing or seated upright. Squeeze shoulder blades together and down without shrugging.

Dead Bug (Arms Only / Heel Slides) — 3 min
Supine, knees bent, core braced. Alternate gentle arm raises or heel slides without arching lower back.

Glute Bridges — 4 min
3 sets of 10 reps. Drive through heels, lift hips into neutral alignment, squeeze glutes at top.

Alternating Heel Slides — 3 min
Controlled leg extension along mat. Keep pelvis level and transverse abdominis engaged.

Constructive Rest — 5 min
Supine with bolster under knees. Slow diaphragmatic breathing for parasympathetic reset.

Y-MED2 Spine & Pelvic Stability Flow — 30 min

Intensity: Medium | **Equipment:** Mat, Strap, Bolster, Block | **Target:** Thoracic mobility & lumbar unloading

Pelvic Tilts & Transverse Holds — 5 min
Supine, knees bent. Alternating gentle posterior pelvic tilts with 5-second core brace holds.

Open Book Thoracic Mobilization — 5 min
Side-lying, bolster clamped firmly between knees. Sweep top arm open; neck stays aligned.

Thread the Needle (Modified Forearm) — 5 min
Cushioned quadruped or seated. Slide arm through without collapsing shoulder or twisting cervical spine.

Supported Bridge Holds — 5 min
Yoga block at lowest height under sacrum. Rest full pelvic weight into block to decompress discs.

Supine Strap Hamstring & Calf Release — 5 min
Loop strap around ball of foot. Extend leg gently upwards without straining grip. 2.5 min each leg.

Supported Savasana — 5 min
Mat rest with bolster under knees and small cervical support roll under neck.

Y-MED3 Restorative Decompression & Nerve Gliding — 40 min

Intensity: Medium-Restorative | **Equipment:** Mat, Bolster, Blocks, Strap | **Target:** C7–T1 neurodynamic sliding & hip ease

Constructive Rest & Breathwork — 8 min
Supine with knees over bolster. 4-second inhale into belly, 6-second slow exhale.

Supine Cervical Rotation & Tucks — 6 min
Micro-retractions against mat (10 reps); gentle rotation left/right within 50% comfortable arc.

Upper Limb Neurodynamic Sliders — 6 min
Gentle nerve flossing with elbow flex/extension and wrist gliding below 80° elevation.

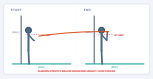

Supine Figure-Four with Strap — 8 min
Cross ankle over opposite knee. Loop strap around hamstring to draw gently. 4 min per side.

Supported Sphinx Micro-Lifts — 5 min
Prone, forearms grounded. Lift sternum fraction of an inch; cervical spine rigid and aligned with back.

Acupressure Mat Wind-Down — 7 min
Supine on acupressure mat with bolster under knees. Deep relaxed breathing.

FORM REFERENCE • SCAPULAR ALIGNMENT & NEURODYNAMICS

Zero Impact • Form Alignment

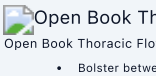

Wall Angels Partial Range

- Back flat to wall
- Chin tucked in neutral
- Elbows below 90°

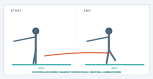

Glute Bridges Neutral

- Drive through heels
- Neutral hip extension
- Transverse brace

Open Book Thoracic Flow

- Bolster between knees
- Sweep top arm open
- Head supported

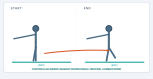

Thread the Needle Modified

- Forearm on block/mat
- Gentle thoracic slide
- Neck aligned

Supported Sphinx Micro-Lifts

- Forearms grounded
- Micro-chest lift
- Cervical spine rigid

Neurodynamic Sliders

- Elbow/wrist glide
- Arm below 80°
- Zero stretch pain

RUMBLE OS • CLINICAL YOGA & TAI CHI SERIES

A4 Laminated Reference • Sheet 4: Expert Strength Yoga & Pilates Isometrics

SHEET 4 OF 6 • EXPERT REHAB

Cervical ACDF C4–C7:	Strictly neutral spine; zero head extension or end-range rotation; supported neck roll.	**Left Knee Meniscal:**	Knee flexion ≤45°; no unpadded floor kneeling; cushioned bolster under joints.	**Right Shoulder Impingement:**	Active elevation ≤80°; elbows below clavicle; light band resistance only.

Y-EXP1 Total Body Isometric Yoga & Pilates Hybrid — 45 min

Intensity: Expert Isometric | **Equipment:** Mat, Bands, Pilates Bar, Blocks | **Target:** High tension without spinal flexion

Supine Core Bracing & Pelvic Clocks — 8 min
Deep transverse abdominis engagement in 12-to-6 and 3-to-9 o'clock pelvic tilt patterns.

Dead Bug Complex with Resistance Band — 10 min
Band looped around feet, strict 90° hip angle. Press heel down against band while stabilizing core.

Supine Pilates Bar Leg Press — 10 min
Supine, feet in resistance cords of Pilates bar. Press away extending knees; quad/glute strength without knee shear.

Seated Low Rows with Band — 8 min
Sit tall against wall, band looped around feet. Row handles to lower ribs, elbows tucked low and back.

Supported Bridge Holds with Block Squeeze — 5 min
Yoga block between knees. Bridge up, isometric squeeze to recruit adductors and deep pelvic floor.

Final Supine Decompression — 4 min
Bolster under knees, complete passive recovery and parasympathetic downshift.

Y-EXP2 Comprehensive Spinal Rehab & Kinetic Strength — 60 min

Intensity: Expert Strength & Stability | **Equipment:** Mat, Bands, Bolster, Blocks, Dumbbells | **Target:** 5-phase kinetic chain reinforcement

Phase 1: Deep Neck Flexor & Scapula — 10 min
Supine isometric chin tucks (3x10 reps, 5s hold); prone W-raises with forehead on block (3x12).

Phase 2: Scapulothoracic & Band Complex — 12 min
Band pull-aparts below shoulder height (3x15); 30° dumbbell shrugs (3x10); banded rotator cuff rotations.

Phase 3: Core & Lumbopelvic Crucible — 15 min
Banded Dead Bug with contralateral resistance (3x12); quadruped knee hovers 1 inch off mat (3x30s); bridge pulses.

Phase 4: Hip & Lower Kinetic Integration — 12 min
Side-lying banded clamshells (left knee braced, 3x15); straight-leg abductions; supine single-leg pushdowns.

Phase 5: Decompression & Unloading — 11 min
Reclined Bound Angle Pose with blocks under thighs (5 min); constructive rest with bolster (6 min).

FORM REFERENCE • ISOMETRIC CORE & KINETIC CONDITIONING

Zero Impact • Form Alignment

Pelvic Clocks & Core Bracing

Pelvic Clocks & Core Bracing

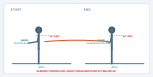

- Transverse engagement
- 12-6 / 3-9 tilts
- Sustained stability

Dead Bug Complex with Band

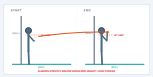

Dead Bug Complex with Band

- Foot band resistance
- 90° hip angle
- Zero lumbar extension

Pilates Bar Supine Leg Press

- Supine cord resistance
- Zero knee joint shear
- Closed-chain quad drive

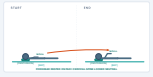

Seated Low Wall Rows

- Upright wall support
- Band around feet
- Low elbow retraction

Deep Neck Flexor Retractions

- Supine retractions
- Forehead on block
- Neutral stabilization

Scapulothoracic Band Complex

- Pull-aparts below shoulder
- Low shrugs (1-2kg)
- Rotator cuff glide

RUMBLE OS • CLINICAL YOGA & TAI CHI SERIES

A4 Laminated Reference • Sheet 5: Daily System Yoga Routines 1–5

Cervical ACDF C4–C7: Strictly neutral spine; zero head extension or end-range rotation; supported neck roll.

Left Knee Meniscal: Knee flexion ≤45°; no unpadded floor kneeling; cushioned bolster under joints.

Right Shoulder Impingement: Active elevation ≤80°; elbows below clavicle; light band resistance only.

y1 Gentle Lumbar Release — 15 min

Intensity: Gentle Restorative | **Equipment:** Mat / Bed, Bolster | **Target:** Lumbar decompression & facet ease

Supine Pelvic Tilts — 3m 45s
Flatten lower back against mat on exhale, gentle arch on inhale.

Supported Child's Pose — 3m 45s
Widen knees, rest torso forward on bolster, lengthen spine.

Supine Single Knee-to-Chest — 3m 45s
Gently hug right knee, then left knee. Keep sacrum grounded.

Restorative Savasana with Bolster — 3m 45s
Place bolster under knees to release psoas and lumbar pressure.

y2 Cervical Mobility Flow — 10 min

Intensity: Gentle Restorative | **Equipment:** Chair / Mat | **Target:** Axial neck retractions & trap relaxation

Seated Axial Retraction — 2m 30s
Gently draw chin backwards creating double chin, lengthening back of neck.

Gentle Lateral Ear-to-Shoulder — 2m 30s
Drop right ear to right shoulder without lifting opposite shoulder. Repeat left.

Shoulder Shrug & Release — 2m 30s
Inhale lift shoulders towards ears, exhale drop down with a sigh.

Restorative Alignment Breathing — 2m 30s
Sit upright, focus on diaphragmatic 360 breathing relaxing neck muscles.

y3 Full Body Restorative Yin — 25 min

Intensity: Gentle Restorative | **Equipment:** Mat, Bolster, Blocks | **Target:** Nervous downshift & passive mobility

Supported Reclined Bound Angle — 6m 15s
Feet together, knees supported by pillows/blocks, hands on abdomen.

Gentle Cat-Cow Spine Wave — 6m 15s
Flow gently with breath, avoiding end-range lumbar/cervical extremes.

Supported Gentle Sphinx — 6m 15s
Rest elbows on mat, gentle passive thoracic extension, neck neutral.

Legs Up the Wall Relaxation — 6m 15s
Elevate legs against wall to facilitate venous return and decompression.

y4 Shoulder & Thoracic Opener — 20 min

Intensity: Adaptive Mobility | **Equipment:** Mat, Strap | **Target:** Mid-back & pectoral expansion

Thread the Needle — 5 min
Slide right arm under torso, rest right shoulder and temple on cushion/mat.

Puppy Pose Thoracic Stretch — 5 min
Hips stay over knees, walk hands forward melting chest towards floor.

Seated Cactus Arm Openers — 5 min
Draw elbows back and down, opening anterior chest wall without neck strain.

Scapular Retraction & Rest — 5 min
Rest in prone or seated, focusing on mid-back diaphragmatic expansion.

y5 Hip Flexor & Psoas Flow — 15 min

Intensity: Adaptive Mobility | **Equipment:** Mat, Cushion, Strap | **Target:** Anterior hip release & pelvic tilt

Low Kneeling Lunge — 3m 45s
Step foot forward onto cushion, tuck tailbone, stretch anterior hip flexor.

90/90 Seated Hip Flow — 3m 45s
Rotate knees side to side gently to mobilize internal and external hip rotation.

Gentle Reclined Figure-4 — 3m 45s
Cross right ankle over left thigh, hold left hamstring gently with strap.

Savasana Psoas Rest — 3m 45s
Lie flat with bolster under knees, gentle diaphragmatic expansion.

FORM REFERENCE • DAILY RESTORATIVE & MOBILITY FLOWS

Zero Impact • Form Alignment

Supine Pelvic Tilts

- Pelvic flattening
- Deep core brace
- Relaxed upper spine

Cervical Chin Tuck

- Axial retraction
- Lengthen neck back
- Gaze forward

Gentle Cat-Cow Flow

- Segmental wave
- Avoid end-ranges
- Diaphragmatic rhythm

Cactus Arm Expansion

- Elbows at 90°
- Scapular squeeze
- Chest opening

Reclined Figure-Four

- Ankle over thigh
- Piriformis release
- Sacrum grounded

RUMBLE OS • CLINICAL YOGA & TAI CHI SERIES

A4 Laminated Reference • Sheet 6: Daily System Yoga Routines 6–10

Cervical ACDF C4–C7: Strictly neutral spine; zero head extension or end-range rotation; supported neck roll.

Left Knee Meniscal: Knee flexion ≤45°; no unpadded floor kneeling; cushioned bolster under joints.

Right Shoulder Impingement: Active elevation ≤80°; elbows below clavicle; light band resistance only.

y6 Morning Spine Awakening — 15 min

Intensity: Adaptive Mobility | **Equipment:** Mat, Blocks | **Target:** Multi-planar spinal lubrication

Cat-Cow Spine Awakening 3m 45s Coordinate slow spinal flexion and extension with deep breathing.	**Gentle Side Body Child's Pose** 3m 45s Walk hands to the right in child's pose, then left.	**Gentle Supine Torso Twist** 3m 45s Drop knees gently to right, look center or left. Keep shoulders relaxed.	**Restorative Prone Rest** 3m 45s Rest face down on hands, allowing spine to settle in neutral.

y7 Chair Yoga Desk Decompression — 10 min

Intensity: Gentle Restorative | **Equipment:** Sturdy Chair | **Target:** Zero-floor desk interval relief

Seated Cat-Cow 2m 30s Hands on knees, inhale arch chest forward, exhale round mid-back gently.	**Seated Figure-4 Hip Opener** 2m 30s Ankle on opposite knee, lean gently forward with straight back.	**Seated Upper Trapezius Drop** 2m 30s Hold chair base with right hand, tilt head gently to left.	**Seated Chest Expansion** 2m 30s Interlace hands behind lower back or chair frame, gently lift collarbones.

y8 Vagus Nerve & Restorative Breath — 15 min

Intensity: Gentle Restorative | **Equipment:** Mat, Towel | **Target:** Parasympathetic vagal activation

4-7-8 Parasympathetic Breathing 3m 45s Inhale 4s through nose, hold 7s, smooth exhale 8s through pursed lips.	**Suboccipital Massage with Towel** 3m 45s Rest base of skull on rolled towel, gentle micro-turns of head.	**Oculomotor Vagal Reset** 3m 45s Keep head straight, look fully right for 30s until swallow/sigh, then left.	**Gentle Heart-Belly Grounding** 3m 45s One hand on heart, one on belly. Feel warmth and parasympathetic calm.

y9 Hamstring & Posterior Chain Release — 15 min

Intensity: Adaptive Mobility | **Equipment:** Mat, Strap | **Target:** Fascial release without disc flexion

Supine Strap Leg Extension 3m 45s Loop strap under right foot, extend leg upward keeping pelvis flat.	**Gentle IT Band Cross-Body** 3m 45s Draw straight leg slightly across midline (2-3 inches max).	**Reclined Hamstring Flutter** 3m 45s Gentle micro-bends and straightening of knee to desensitize sciatic nerve.	**Restorative Leg Rest** 3m 45s Rest legs long on mat, noticing length through lower back.

y10 Evening Restorative Wind-Down — 20 min

Intensity: Gentle Restorative | **Equipment:** Bed / Mat, Bolster | **Target:** Parasympathetic sleep induction

Wide Knee Child's Pose 5 min Allow belly to soften between thighs, long slow exhales.	**Supported Bridge Pose** 5 min Block or pillow under sacrum, arms relaxed at sides or low chest.	**Supine Spinal Twist with Pillow** 5 min Pillow between knees, slow gentle twist to each side.	**Corpse Pose Deep Relaxation** 5 min Complete still surrender into mattress or mat, releasing all guarding.

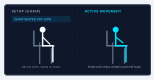

FORM REFERENCE • SPINAL AWAKENING & EVENING WIND-DOWN

Zero Impact • Form Alignment

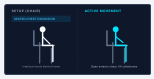

Bird Dog Stabilization

- Contralateral reach
- Neutral lumbar core
- Controlled cadence

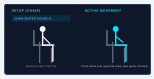

Chair Seated Cat-Cow

- Chest expands on inhale
- Gentle round on exhale
- Spine lubricated

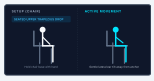

Chair Chest Expansion

- Hands grip chair back
- Shoulders depressed
- Collarbones lifted

Chair Seated Figure-Four

- Ankle over knee
- Straight torso lean
- Gluteus stretch

Chair Trapezius Drop

- Grip seat edge
- Gentle lateral tilt
- Upper trap release
