SHEET 1: GLUTEUS COMPLEX & LOWER BACK CLINICAL PROTOCOL (12 PROTOCOLS)

Hydrostatic Decompression (32°C–34°C Pool) · Targeted Gluteus Medius/Maximus Activation · Lumbar Facet Offload · Transverse Bracing

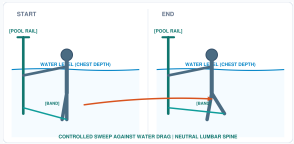

01. Rail Pelvic Tilts & Neutral Holds

LUMBAR DECOMPRESSION · CORE · *Hold 10s · 6 reps*

CUE: Back flat against pool wall; draw belly to spine & flatten lumbar spine into wall.

SAFEGUARD: Cervical locked neutral; no breath holding.

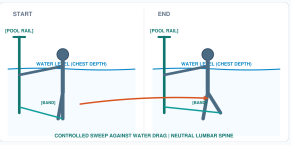

02. Submerged Band Glute Abduction

GLUTEUS MEDIUS · PELVIC TILT · *3 sets x 12 reps / side*

CUE: Band anchored to rail/ankle; lateral outward sweep against water drag.

SAFEGUARD: Strict upright torso; avoid lateral pelvic hike.

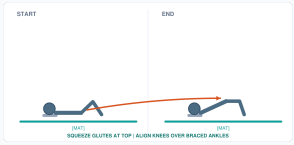

03. Rail Explosive Glute Kickbacks

GLUTEUS MAXIMUS STRENGTH · *3 sets x 10 reps / side*

CUE: Hold pool rail; drive heel straight back squeezing glute at peak extension.

SAFEGUARD: Zero lumbar hyperextension; brace core firmly.

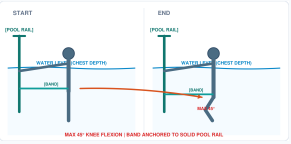

04. Aquatic Supported Glute Bridges

POSTERIOR CHAIN ACTIVATION · *3 sets x 12 reps (3s hold)*

CUE: Float noodles under shoulders; drive hips up squeezing glutes into neutral.

SAFEGUARD: Do not arch lower back past neutral plane.

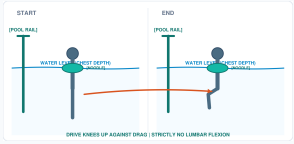

05. Pool-Rail Power Squat Pulses

GLUTE / QUAD SYNERGY · *3 sets x 15 pulses*

CUE: Firm 2-hand rail grip; shallow mini-squat pulse driving through heels.

SAFEGUARD: Max 45° knee bend (left knee meniscus shield).

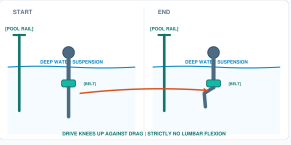

06. Noodle Knee Drives (Anti-Flexion)

LOWER RECTUS · PSOAS RELIEF · *3 sets x 15 reps*

CUE: Noodle under axillae; draw knees upward smoothly using lower abdominals.

SAFEGUARD: Strictly no lumbar flexion or spinal rounding.

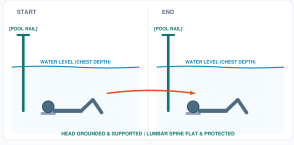

07. Deep Water Core Suspensions

AXIAL SPINE OFFLOAD · *3 sets x 30s holds*

CUE: Flotation belt in deep well; suspend body vertically drawing navel inward.

SAFEGUARD: Allow gravity to open lumbar disc spaces naturally.

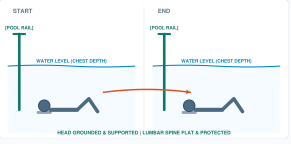

08. Hydro Decompression Stretches

FACET JOINT RELIEF · *4 mins continuous*

CUE: Hang gently from rail or noodle; allow buoyant upward force to separate discs.

SAFEGUARD: Zero jerking; relax paraspinous muscle guard.

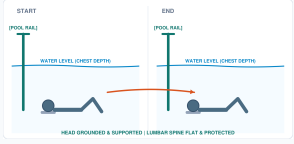

09. Buoyancy Decompression Float

SYMPATHETIC DOWNREGULATION · *5 mins restorative*

CUE: Cervical collar + knee bolster; full buoyant float in warm 34°C water.

SAFEGUARD: Neck fully supported; eyes closed, slow breaths.

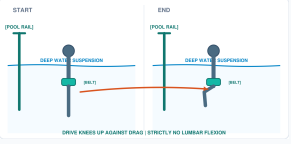

10. Lower Kinetic Pelvic Power Drive

SI JOINT STABILIZATION · *3 sets x 10 reps*

CUE: Banded ankle resistance; multi-planar glute drive against hydrostatic pressure.

SAFEGUARD: Maintain level ASIS pelvis; no rotational torque.

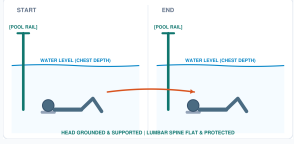

11. Deep-Water Aquatic Crucible

ISOMETRIC TRUNK STRENGTH · *3 sets x 45s*

CUE: Deep water scissor-kick hold with core braced in vertical cylinder.

SAFEGUARD: No spinal flexion; keep chest proud and calm.

12. Full Decompression Surrender

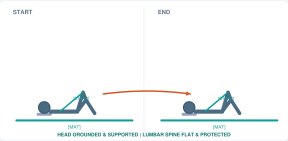

NEURO-FASCIA RESET · *4 mins final reset*

CUE: Supported supine elongation; gentle water turbulence soothing spasm.

SAFEGUARD: Total muscular release; neutral cervical cradle.

SHEET 2: KINETIC CHAIN RECOVERY & SPINAL ALIGNMENT (12 PROTOCOLS)

Targeted Distribution: 2 Calf/Vascular · 2 Quad/VMO · 4 Hip/Groin/Adductor Complex · 2 Back/Latissimus · 2 Scapula/Cervical Spine

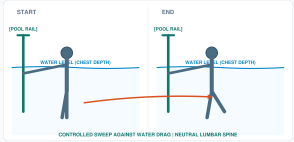

13. Hydro Rail Calf Pumps (Gastroc)

CALF 1/2 · VENOUS RETURN · *2 sets x 20 slow pumps*

CUE: Chest-depth water; rise onto balls of feet, squeeze gastrocnemius, 2s lower.

SAFEGUARD: Hydrostatic pressure assists venous return & flush.

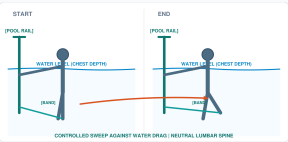

14. Aqua Heel-Toe Stride Propulsion

CALF 2/2 · SOLEUS POWER · *4 mins walking drill*

CUE: Exaggerate plantarflexion push-off from big toe; load soleus in water.

SAFEGUARD: Keep ankles aligned; avoid outward foot roll.

15. Submerged Band Knee Extension

QUAD 1/2 · VMO RECRUITMENT · *3 sets x 12 reps / leg*

CUE: Back to rail; extend lower leg forward against water drag to terminal extension.

SAFEGUARD: Controlled concentric kick; no hyperextension snap.

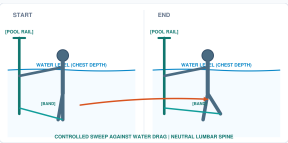

16. Rail Banded Shallow Squat Press

QUAD 2/2 · ECCENTRIC CONTROL · *3 sets x 10 reps*

CUE: Band at waist; sit back into hips driving through quads to stand tall.

SAFEGUARD: Max 45° knee flexion strictly enforced (patellar guard).

17. Banded Lateral Monster Walks

HIP 1/4 · TFL / GLUTE MED · *3 sets x 12 paces left/right*

CUE: Semi-submerged band above knees; athletic lateral steps resisting inward collapse.

SAFEGUARD: Keep toes pointing forward; knees tracking second toe.

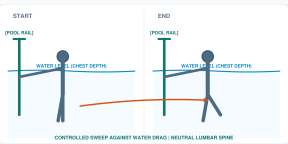

18. Submerged Groin / Adductor Sweeps

HIP 2/4 · ADDUCTOR LONGUS · *3 sets x 12 reps / leg*

CUE: Hold rail sideways; sweep leg across midline against water drag squeezing inner thigh.

SAFEGUARD: Keep pelvis square; no twisting at lumbar spine.

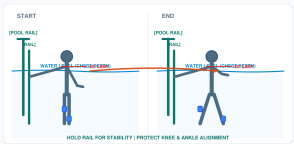

19. Hydrodynamic Hip Flexor Opener

HIP 3/4 · PSOAS LENGTHENING · *2 sets x 30s / side*

CUE: Split stance holding rail; gently sink hips forward stretching anterior hip capsule.

SAFEGUARD: Do not hyperextend lumbar spine; tuck pelvis under.

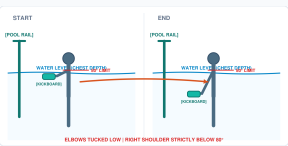

20. Multi-Planar Aqua Hip Floss

HIP 4/4 · CAPSULAR MOBILITY · *3 mins continuous*

CUE: Submerged smooth circular leg glides (circumduction) in warm soothing water.

SAFEGUARD: Stay strictly within pain-free anatomical envelope.

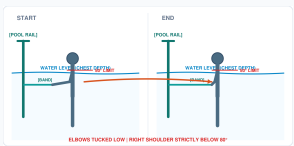

21. Kickboard Aquatic Press-Downs

BACK/SHOULDER 1/2 · LATISSIMUS · *3 sets x 10 reps*

CUE: Grip kickboard with both hands at chest level; press straight down engaging lats.

SAFEGUARD: Right shoulder STRICTLY below 80° abduction/flexion.

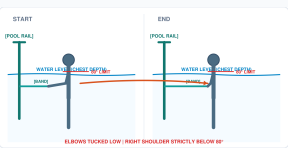

22. Submerged Unilateral Band Rows

BACK/SHOULDER 2/2 · RHOMBOIDS · *3 sets x 12 reps / arm*

CUE: Band anchored to rail at waist height; elbow tucked low, draw back into water.

SAFEGUARD: Elbow below shoulder line; do not shrug upper trap.

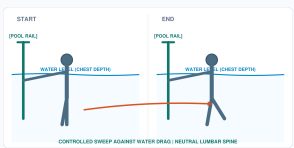

23. Submerged Banded Low W-Rows

SCAPULA 1/2 · MID/LOWER TRAP · *3 sets x 12 reps*

CUE: Elbows tucked tight to ribs; squeeze scapulae down & back into water resistance.

SAFEGUARD: Zero shoulder shrug; avoid C7-T1 burning trigger.

24. Aquatic Scapular & Chin Retract

CERVICAL 2/2 · DEEP FLEXORS · *3 sets x 10 reps (5s hold)*

CUE: Submerged horizontal arm sculling paired with gentle axial cervical chin tuck.

SAFEGUARD: C4-C7 FUSION STRICT NEUTRAL: No head tilting or neck shear.
